

REGION 2 WEEKLY HIGHLIGHTS TO ADMINISTRATOR
WEEK OF 2/25/19

Hot Issues:

not responsive

Outreach to New USVI Environmental Commissioner Jean-Pierre Oriol: On 2/20/19 RA Pete Lopez and the Region's senior staff met by conference call with Mr. Oriol, recently appointed as Commissioner of the U.S. Virgin Islands' Department of Planning and Natural Resources. A new administration took office in the USVI in January; this was our first opportunity to interact with Commissioner Oriol. The Commissioner's priorities include resolving the Territory's "high risk grantee" status; continued post-hurricane recovery work; the future Limetree Bay Terminals refining facility on St. Croix (site of the former Hovensa refinery); and addressing the Territory's solid waste crisis (including two non-compliant landfills at near capacity).
